Kampen
and Beyond

Before the rise of Amsterdam, **Kampen** ruled the waves. **Kampen** was the most powerful and prosperous town of Holland and one of the leading cities of Northwest Europe. **Kampen** was part of an international trading alliance called De Hanze.

The historic center is one of the country's best preserved, boasting no fewer than 500 medieval monuments, including houses, gates, and towers. **Kampen** won the Dutch Heritage Award in 2013 and in June 2017 **Kampen** will host The International Hanseatic Days.

From **Kampen**, you will encounter the genuine Dutch mentality in a quiet and peaceful atmosphere.

We will do our utmost best to show our guests the most beautiful things, to tell them special stories and to be a good host. We have a wide variety of outings: from a guided walking tour to arrangements and customized outings.
